

## How to Add Video into Pages

1. Locate the video you would like to add to your page.
2. You need to locate the embed code. When you're using YouTube, click on the Share button, then the Embed button.
3. Copy the Embed code.
4. Go to the page in your Real Pro Admin panel where you would like to add the video.
5. Click on the button in the HTML editor (toolbar) that looks like a filmstrip.
6. Paste the embed code into the box that comes up.
7. Your video will appear in your page.
8. Click Save at the bottom of the page to save your work.
